Jesus E. Marroquin

Software Development Analyst

jescvzyt@gmail.com • +52-8118227125 • https://www.linkedin.com/in/jesusmarroquin/

I'm a Software Engineering Analyst with two years of robust experience as a FullStack Engineer. My expertise lies in backend technologies including JAVA, PHP, C# and Python, complemented by my proficiency in frontend development with React and Angular. I've had the privilege to collaborate with esteemed companies, addressing large-scale, complex requests.

In addition to my technical roles, I've also served as an Operational Lead. My responsibilities encompassed steering client discussions, adeptly allocating resources, and ensuring seamless project execution.

Recognitions in the form of multiple awards highlight my rapid career progression and unwavering commitment to exceeding expectations in my responsibilities.

WORK EXPERIENCE

Advanced App Engineering Analyst   December 2022 – Present

Accenture, Monterrey, N.L. México

As a FullStack Developer at Accenture, I am contributing to one of its largest clients. My primary responsibility involves crafting solutions utilizing a customized version of PHP for backend services and employing React for frontend development.

I played a pivotal role in the migration of the legal team to a more advanced tool, designed to streamline their workflow. This task necessitated revisiting and comprehending legacy code, leading to the creation of comprehensive new documentation to enhance understandability and usability.

My contributions extend to the development of several features, with a notable focus on privacy-related enhancements, standardization and process enhancements to boost efficiency. With this mindset multiple sites performance were optimized, resulting in expedited internal workflows and improved operational productivity.

Application Development Associate   June 2021 – November 2022

Accenture, Monterrey, N.L. México

I started my career as a FrontEnd Engineer, specializing in utilizing React and Angular for development. Upon the completion of the project lifecycle with a client, my work ethic and productivity had made a significant impression, leading them to express a keen interest in retaining my services. To facilitate my professional growth, I embraced the opportunity to transition into a Backend Engineer role.

In this expanded capacity, I crafted numerous features tailored for streaming service users, ensuring accessibility was a core focus to enhance user experience. Additionally, I developed a new API designed to streamline the purchasing process for services, marking a significant enhancement in efficiency and user engagement.

Head of E-Commerce   August 2018 – January 2020

Costco, Monterrey, N.L. México

EDUCATION & CERTIFICATIONS
